Eco-Friendly Areca Tableware

Export Catalogue

Sustainable Tableware Solutions - Palm leaf & Bagasse

About Earthly Plates International

Earthly Plates International is your trusted partner for premium eco-friendly disposable tableware sourced directly from certified Indian manufacturers.

We specialize in high-quality areca palm leaf that meets international sustainability standards - fully biodegradable, compostable, and export-ready for global markets.

Our comprehensive services include:

- Direct sourcing from verified manufacturers
- Private labeling and custom branding solutions
- Flexible minimum order quantities (MOQs)
- Complete export documentation and compliance support
- Quality assurance and certification management

We bridge the gap between Indian manufacturers and international buyers across the UK, EU, and global markets, ensuring seamless trade partnerships and reliable supply chains for sustainable tableware solutions.

Why Choose Us

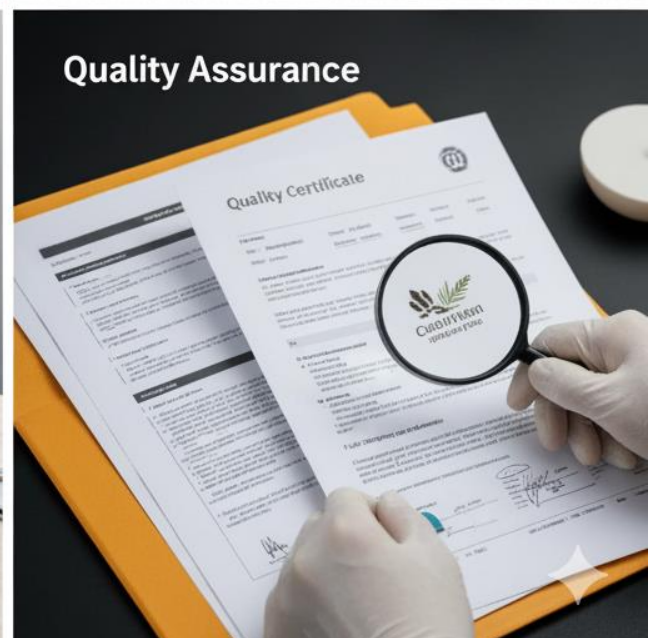

Our Value Proposition:

Certified Manufacturing Network - Direct partnerships with FSC, ISO 9001, FSSC 22000, USDA Biobased, BSCI & CTPAT certified facilities.

Export-Ready Solutions - ISPM-15 compliant packaging, phytosanitary certificates, and complete CoO documentation

Flexible Terms - Custom branding options with adaptable MOQs to suit your market requirements

Quality Assurance - Full certification documentation and third-party testing reports included

Manufacturing Process (Clean & Sustainable)

1. Collection of naturally fallen areca palm leaves
2. Washing and sanitization (no chemicals)
3. Heat-pressing into plates, bowls and trays
4. UV treatment and quality checks
5. Packing into export cartons - fumigation-ready (ISPM-15)

Available Sizes: 4", 5", 6".

Usage & Applications

Our areca tableware is trusted by restaurants, hotels, caterers, event planners, and retail packaging companies around the world. Designed to handle both hot and cold food, it offers a reliable and eco-friendly option for diverse settings—whether it's outdoor festivals, weddings, corporate events, or daily service. With its natural strength and stylish finish, it enhances food presentation while supporting sustainable practices. For bulk requirements, we also provide custom printing and private labeling solutions tailored to your brand.

Sustainability & Certifications

Our tableware is made from naturally fallen areca palm leaves, ensuring no trees are ever cut in the process. Each product is 100% biodegradable, industrially compostable, and has been lab-tested for safety and performance. Free from plastics, chemicals, and harmful coatings, our range is completely food-safe and eco-conscious.

We are proud to meet international standards, with certifications including FSC (paper divisions), USDA Bio based (for qualifying lines), and quality systems like ISO 9001 and FSSC, wherever applicable. These recognitions reflect our commitment to sustainability, safety, and reliability at every stage.

Export, Packaging & Logistics

We take every step to ensure our products reach customers in perfect condition. All items are packed in durable export-grade cartons and secured on pallets that are fumigation-ready and compliant with ISPM-15 standards. This guarantees safe handling during long-distance shipping and protects the integrity of the products until they reach their destination.

To support smooth international trade, we provide a full set of export documentation on request. This includes the Certificate of Origin, Phytosanitary Certificate, Quality Test Reports, and regulatory compliance documents such as FDA or BRC certifications (where required). These documents are prepared carefully to meet the needs of different importing countries and ensure hassle-free customs clearance.

For logistics, we offer a range of shipping solutions—FOB, CIF, and DDP—based on customer preference. Our team works closely with trusted international freight forwarders to coordinate shipments efficiently and on time. From packing and paperwork to port handling and delivery, we manage the entire export process so that buyers can focus on their business with confidence.
